

Smart
screen mounts
to **elevate** your
meeting **experience**

Catalog 2020 / 2021

ABOUT US

We design and manufacture a range of innovative and intelligent screen stands. Our Yoo'UP products simplify the user's experience to improve productivity and collaboration amid your teams.

Our refined mounts respect your interior space and guarantee an optimal use, without requiring any drilling.

By integrating a connected control interface to our motorized and mobile mounts, the technology is finally adapted to man.

Our design office also imagines tailor-made solutions that are perfectly adapted to your needs.

EVO1

The Evo1 support :
your screens finally have a motorized and intelligent mount.

Screen attachment up to 98" +

Designed for all screens between 56 and 98 inches, this mount is specially designed for places where the wall structure cannot mount heavy loads.

Control interface +

The Yoo'UP Control allows you to save time thanks to the simplified management of all your tools: launching, changing the video source, managing the volume and brightness of the screen, etc.

Customize the control interface using the Yoo'UP Manager.

The Yoo'UP app allows access to all the features offered by the interface.

+ Motorized height adjustment

The mount offers a vertical screen adjustment with a stroke of 400 mm that adapts to any user (people with reduced mobility, children) and to any use. The EVO1 is equipped with a motorization that allows a quick and discreet adjustment.

+ Secure storage

With a lockable compartment with an integrated multi-socket, the Evo1 allows a simple and safe storage of all your equipment.

+ Ergonomic base

Thanks to its discreet base, the screen mount allows easy access. Designed for people with reduced mobility.

+ Optional

- Selection of color.
- Addition of your logo.
- Mobility.
- Power inverter (Backup).

Perfect for large interactive screens.
The Evo1 will add value to your conference, training and meeting rooms thanks to its elegant design and innovative technology.

OYOO

The Oyoo support :
the most discreet and operational on the market.

Wall fixing security +

The Oyoo can be fixed on the wall with two screws for more security.

Discreet support +

The refined design of the Oyoo will blend perfectly with the wall of your interior without requiring any drilling. Its shape is designed to take as little space as possible.

Offset system +

USB and HDMI ports have been placed inside the mount to facilitate connections.

+ Demountable mount

The Oyoo stand is fully removable for easy storage when not in use.

+ Front camera tablet

Equipped with a small front shelf to put a camera for videoconferences.

+ Practical storage

A convenient space enables to store your small equipment (BYOD, wireless system, ...) and to hide your cables.

+ Optional

- Yoo'UP Control light.
- Selection of color.
- Addition of your logo.

This support will fit with refinement and discretion in any interior. Its design will add a luxurious touch while limiting the space required. Its storage will allow you to easily integrate small click & share or mini pc boxes.

XS Pro

The XS Pro support:
a mount at the height of your ambitions.

Demountable mount

The XS PRO stand is fully removable for easy storage when not in use.

Control interface

The Yoo'UP Control allows you to save time thanks to the simplified management of all your tools: launching, changing the video source, managing the volume and brightness of the screen, etc.

Customize the control interface using the Yoo'UP Manager.

The Yoo'UP app allows access to all the features offered by the interface.

Secure storage

The XS PRO is equipped with a secure compartment to store your equipment.

Assisted height adjustment

The XS PRO allows quick and effortless adjustment of the screen height to suit any user (people with reduced mobility, children) and any use.

Back shelf

A foldable shelf is placed at the back to support a computer.

Offset system

USB and HDMI ports have been placed inside the mount to facilitate connections.

Integrated mobility

Its base has been designed to provide excellent stability to facilitate displacements, like passing through doors.

Optional

- Selection of color.
- Addition of your logo.
- Power inverter (Backup).

Impress your collaborators with an innovative and ergonomic support created in order to optimize the quality of meetings, seminars and stays.

Yoo'UP Control

We digitalize our screen stands to simplify and make the user experience unique.

Immediate and intuitive handling of your interactive systems. No more need for a TV remote control, choose a unique and secure control system compatible with all brands.

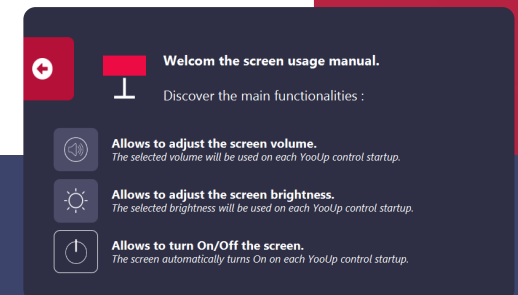

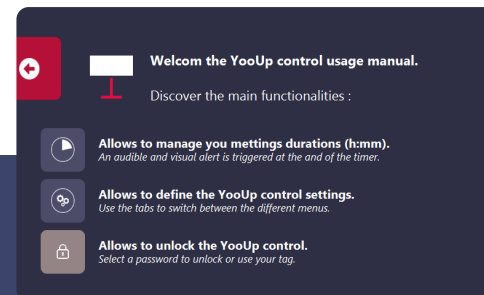

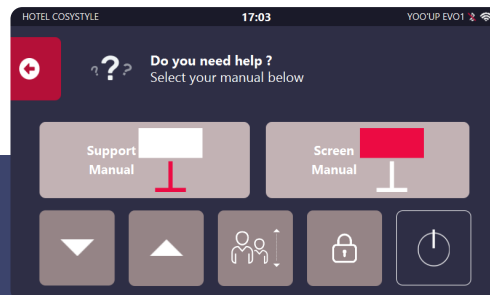

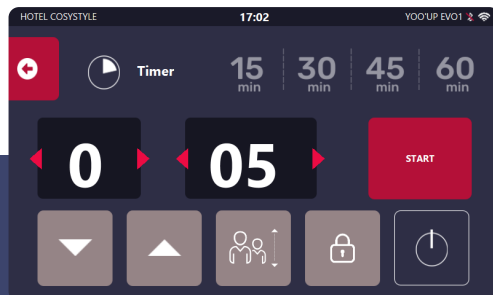

In 1 click interact with your professional TV and your mount: change sources, access directly to the whiteboard, mute the sound or adjust the height of your screen to yoursizes for optimal use (Screen adjustment for people with reduced mobility).

Help your collaborators or your customers to immediately take in hand the interactive systems (TV - BYOD - PC - videoconference...).

Our Yoo'UP Control system is secured (user and administrator access code, with RFID badge) and customizable:

- Change the language
- Select the brand of your screen
- Select and rename in one click your sources
- Add your logo and company name
- and much more!

Yoo'UP Control

light

Control your digital ecosystem from your seat and with your mobile phone

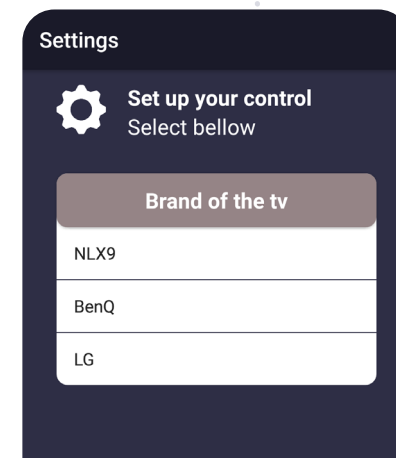

Yoo'UP Control light will allow you, like its big brother, to control your devices from your seat without moving.

Simple
